

- 4) **Secondary Element 1:** Describe a secondary objects/element in your image. Where is it going to be? Why is it going to be put there? What is its size relationship to everything else in the image?
- 5) **Secondary Element 2:** Describe another secondary object/element in your image. Where is it going to be? Why is it going to be put there? What is its size relationship to everything else in the image?
- 6) **Sketch:** Draw your idea in the space below. This does not have to be a great artistic endeavor. A simple sketch with “stick figures” will suffice. Just get the idea of composition, element placement, and the relationships between the different elements in your proposed image.
