Mr. Weisbrod

Landscape/Nature Photography Evaluation

- 1) After our discussions and lessons, and your shooting and editing, what do you feel about the importance of lighting in a landscape/nature photography?

- 2) Do you feel the nature image that you handed in use the lighting well? Why or why not?

- 3) When you composed your image, were you mindful of foreground, middle-ground, and background? How is this evident in your image?

- 4) What major things do you think your image is missing? How would you incorporate those things into your image if you were to go back and reshoot this photograph?

- 5) What do you think is the strongest part of your image? Why does this stand out? Is this good or not?

- 6) If you were to grade this image, what grade would you give it, and why? (Remember, trying hard is not a valid answer – answer this based on the visual image alone!)
